

Relations Among Reflexivity and Another's Worldview: A MRM Perspective

Helen Erickson will share her perspectives on what it means to model the world of another, importance of caring-healing processes co-created based on the individuals' worldview, inherent need for affiliated-individuation, and ability to mobilize resources at the moment in time.

Helen Erickson

A brief overview of the premises of the Modeling and Role-Modeling theory and paradigm will be introduced as a way of thinking about some of the issues raised in the recent series of movies, Called From Darkness, co-sponsored by the American Holistic Nurses Credentialing Corporation and the Global Academy of Holistic Nurses. Helen will explore the concepts of "Nurse as an instrument of healing" and "client as a spiritual being having a human experience" (Pierre Teilhard de Chardin, quoted in the movie, Recovery Café, TouchPoints Productions, Paul Steinbronner.)
